izens of Maysville, feel justified in appealing to the voters of Mason County, and particularly to

those residing outside of Maysville, in deciding how they should vote upon this question, to re-

carry, and we will be deprived of the revenue from license fees which go very largely toward pay-

ing the annual expenses of the City of Maysville. The amount of revenue which we will be thus

deprived will have to be supplied from some other form of taxation, and will have to come from

by law and paying high license fees to the City Government, we would have substituted therefor

the illegal sale of liquors through the medium of blindtigers and speak-easies. As between the two,

Big Nations All Claim "Brilliant Victories" Paris Menaced By Germans and Berlin Trembles as Russians Advance

LATEST WAR BULLETINS

While the whole world is awaiting definite news from the battle line the French war office contents itself with the statement that as a result of the turning movement of the German army and in order not to accept battle under ment to Market street. Lifavorable conditions, the French roops have again retired.

From the British capital no word is orthcoming regarding what are considered the most momentous operations of the war. While Berlin claims a Ger can victory over Russians in East Prussia and the capture of 70,000 men, the Russians claim a victory over the Austrians on the Galicia side with 30, 00 prisoners.

LANDS TWO BIG CONTRACTS

Mesterday Mr. A. D. Easton was warded the contract for the erection of the O'Keefe building on the West ide of Market street. This calls for three story brick building; the first floor of which will be used as a store room, the second for offices and the third as a lodge room. This contract involves quite a considerable sum of money and will be a decided improve-

MUST WAIT FOR RESULTS.

A "military expert" describes the situation now existing as the closing of the German "mailed fist" with the French army in the palm. Reports of Russian victories in Prussia, coming from St. Petersburg, he regards as probably fictictious, The German operations on the French frontier, as he pictures them, are like an outstretched hand with the thumb upon Belfort and the little finger touching Maubeuge. The main French army is in the palm of the hand and the hand is closing steadily.

As this student of the situation sees the warfrom his study in Washington-the German frontier has been "merely pecked" by the Russians in East Prussia, probably eight corps moving against six corps of German covering troops, and "it is a military impossibility for Russia to do inything in Prussia or Galicia which will in any way affect the decission which is being arrived at in France at the present time."

The prophecies of military experts are much like other prophecies. If that were not so the main events, and the final results, of all wars would be known in advance of the fighting. The question of what the Russians can do against Berlin seems to the lay mind as open as the question of what the Germans can do against Paris. And in both cases the issue is "upon the knees of the gods."

Prophecy is vain. The world must await the outcome. Forecasts are as numerous as forecasters. and to-morrow's events make yesterday's prophets glad to hide their diminished heads in the files of the press of yesterday. Great Britain's expectation of a three-years' war indicates that prophecy there—that of the experienced Lord Kitchenergoes far beyond present occurrences and regards the fate of the French army, with its present supports, as a preliminary occurrence in a conflict which will be carried on all over the world, and waged against commerce and foreign possessions and sources of food supply as well as fought between the colossal armies now in the field between Paris and Berlin,-Courier-Journal,

CANADA'S GREAT GAIN.

When the Underwood bill took a few rails off the Tariff fence the Canadian government promptly appropriated them and raised her Tariff fence that much. The result to this country is plainly exhibited in the figures given by the Canadian Department of Trade and Commerce for the past 12 months, which show a decrease of imports from the United States into Canada of \$40,000,000 from the figures for the corresponding period of 1913. On the other hand there is an increase of exports to the United States of \$32,000,000.

See how it works? There is a practical loss to the United States of \$72,000,000. And what does it mean? Simply that we are paying out to Canada more than we receive and from once being a creditor country we have now become a debtor. Any man in business can tell you quickly the disastrous effects of such a condition.

If it is the intention of the administration to give us the reputation of being a nation of sharpers and make us come out of this war without a friend in Europe we presume the Wilson shipping program must be conceded to be a veritable triumph... Boston Transcript.

HOPE FOR LEWIS COUNTY.

The Attorney General of Kentucky expresses the opinion that the good roads amendment to the Constitution, voted on and adopted in 1909, is valid despite the fact that no formal gubernatorial procla mation was issued.

Gov. Willson, it appears, announced the adoption of the amendment in his message to the Legislature. This, Attorney General Garnett believes is a proclamation sufficient to meet the requirements of the Constitution, but he adds: "If it should be held that the proclamation so made is not sufficient I think, since there is no time limit, the present Governor could make the proclamation."

The point was raised in Lewis county when a bond issue of \$150,000 recently was voted for road construction. The bankers have been hesitating to buy the bonds, because of the doubt that the provisions of the Constitution had been met. It is rather unfortunate that public officials seem to for get now and then that the State has a Constitution and that its provisions have some bearing on their official duties.

Kentucky needs roads and now that at least one county in the State has decided to build some highways for the convenience of its population it is regrettable that the improvement should be de layed by technicalities. But the case is not hopeless, and if the bankers accept the Attorney General's view there is no reason why Lewis county should not proceed with its road program.—Cour ier-Journal.

"HIDEOUS, CRUEL WAR."

"Gay Paree" has always been used to describe the French capital, but with war's fearful alarms, it doubtless is no longer descriptive. The Germans. have determined to take the city and in preparation for the attempt an order has been issued to the owners to tear down and remove thirty-four miles of houses which lie in the zone of attack and which would prevent the forts and batteries from doin their proper work on the attacking army. Think of the loss and the suffering that the compliance with this order will entail, and you will more than ever agree that General Sherman's description of war was not overdrawn. It is hell in all its features financial support of the colleges the and its glory the merest moonshine.

That such a war as is now waging nearly over the entire world should prevail is a libel on the boasted civilization of the twentieth century and proof of the failure of peace tribunals and Hague conferences. The days of war and rumors of war are indeed upon us. Let us pray that the Ruler of the Universe will fulfill his promise to make them cease and cause the nations of the earth to learn of war no more.-W. P. Walton in Lexington Herald.

"Others go to battle," said Tacitus of the Catt tribesmen; "these go to war." Great Britain and France are squarely confronted with a test not merely of their military genius, but of all their vital resources as great nations and of all their tenacity of purpose to remain great nations .-- Nev.

ASHLAND CONVENTION

Eighty Second Annual Cathering of the Kentucky Christian Church Largest In the Churches History

The convention known as the Eighysecond Annual Convention of the Ken ucky Christian Churches began with good attendance at the opening session on Monday evening. The sessions are being held in the new Christian Church at Ashland, Ky., which is a magnificient building. The organist gave all present the impression that the pipe organ wa one of the best in the State. It has the volume, sweet tone, echo and chime and its sweet strains soon lift one on the wings of prayer. The church ha a balconed choir which rendered a fir special selection.

Prof. R. T. Wittinghill gave the ad dress of welcome. He was witty be sides being instructive. He praised the blue grass section but stated that even farmer in the blue grass country would be startled to know that a far mer in eastern Kentucky is being val ued at \$42,000 an acre, and the owner has taken the case to the Court of Appeal to gain his point in valuing it at \$50,000 an acre. A part of his closing ooem was af follows:

The chickens have quit crowing, The cattle have quit lowing, Because they are in the pot With other things quiet hot,

Prepared for you, etc. The response by H. C. Garrison, Danille, Ky., was in place. He had worked against the selection of Ashland as the place for this meeting so his re

BEST CROP IN PENDLETON

We had the pleasure of a visit to the 200-acre plantation of Mayor N. C. Ridgway over in the South Licking riv er bottom this week. This probably is the most fertile 200-acre farm in the ounty and the extra finecrop on it this

year is proof of the assertion. John Kirk and three sons, who moved here last winter from Brown County, Ohio, are managing the farm this season. They have a growing crop of about 50 acres of corn, 18 acres of tobacco, besides other crops of hay, etc. The corn was made before the recent rains and will make from 50 to 60 bushels to the acre. The tobacco is all topped and will make from 1,400 to 2,000 pounds to the acre. A part of this was grown practically without any rain. About six acres of the crop is of the ffally variety and is topped at from 25 to 33 leaves and is about 5 this year than he has ever had, notwithstanding the severe drouth. Falmouth (Ky.) Outlook.

PRESIDING ELDER MANN

Remarkable Record for Church Work the Past Year--- Has Traveled 9.000 Miles By Rail and Had 425 Conversions

Rev. E. G. B. Mann, D. D., presid ng elder of the Maysville District, M. E. Church, South, closed his year's work teen years from organic inflammation, by holding quarterly meeting in Conord, Lewis county, last Sunday evenng and passed through Maysville Monday to his home in Lexington. He wil! go to Wilmore on Wednesday of this week to be present at the session of the Kentucky Annual Conference which onvenes that day.

Dr. Mann's unusual record of work for last conference year was published in the Ledger during last September, s still more-remarkable, in labor and

He has traveled about 9,000 miles by rail, and 500 miles by private conveyance; has held 50 quarterly meetings which on an average of two days each and 12 protracted meetings which aver eged two weeks each, keeping him away from home in all, 268 days out of the year. Besides that he dedicated three new churches and spent three weeks at the General Conference in Oklahoma City as a delegate bring ing the total number of days away from some up to 300.

During that time he preached 42 imes, had 425 persons converted i is meetings, and kept up his extra du ies as editor-in-chief, and business canager of the Central Methodist Ad cocate, a large denominational weekly ewspaper with 9,000 subscribers.

Dr. Mann says that he has been il orly one day during the year and was never in better health or spirits that

There are 60 separate churches in his listrict and only 12 of that number are on the railroad, which will give he reader some idea of the wide trave and exposure which a presiding elder subjected to in traveling a large and raccessible district like that. If any reacher, of any denomination, car show a better record for labor and re sults in one year, than this, we should be glad to hear about it.

Despite the great amount of menta and physical energy expended in his churk work, Dr. Mann, is the picture of physical health-because he knows
